My father taught at Utah State University for about 30 years. My mother taught elementary school for over 10 years. My wife Holli is a former elementary school teacher and I have taught science at a middle school, high school, and University. I have also been a substitute teacher off-and-on through the years. Three of my five children will be attending the high school, middle school, and elementary school in 2007/2008. My last two children will enter the school system in the next couple of years. I have enjoyed working closely with the superintendent, school principals and teachers, board members, and parents since moving to Shelley four years ago. Education is near-and-dear to my heart and serving as a board member is another opportunity for me to stay involved and serve you and our children. I have the following goals as one of your school board members:*

- 2) *Increase collaboration between community members and the school;*
- 3) *Help the District build on successes in academics, sports, and the arts;*

When asked why she wanted to serve on the board: *I did some substitute teaching in the district for a couple of years and developed a real interest in what was happening in the schools. I saw all the wonderful, capable, hardworking teachers and staff and came to appreciate them for what they do. An opening came up in my zone when a board member moved away and I decided to apply. The longer I am on the board, the more responsibility I feel to the students in our schools. I want them to have the best education we can provide, in an environment that makes them feel safe and nurtured. I look forward to being part of the future of our district and the growth that is expected.*
