

PROMOTION

Board Policy

As students of Shelley Joint School District No. 60 receive credit and advance academically, they will be promoted or advanced to different grades and/or schools.

Suggested Implementation Guidelines

The District shall promote students under the following guidelines:

1. Students in grades K – 8 shall be promoted to the next grade providing the student is so recommended by the building principal. Every effort must be made to assure the student has the mastery of appropriate subjects to assure success.
2. At anytime when the principal, teacher, or parents/guardians are concerned by the student's lack of academic progress, retention may be considered consistent with policy number 605.22, Student Retention.
3. Requirements of attendance may impact promotion, therefore reference is made to policy number 501.10, Attendance, section E.

Revised: May 20, 2004
